## EXPERTISE

- Java
- PHP
- Python
- Html, CSS
- Dart
- Flutter
- VB.net

## PROGRAMMING

### Front-End

### Back-End

### Frame-Work

## ABOUT ME

Backend-focused IT student with a passion for logic and problem-solving. I build reliable server-side applications and am constantly expanding my toolkit in PHP and MySql. Looking to bring my coding skills and dedication to efficiency to a dynamic development team.

## EXPERIENCE

### University of Mindanao Digos College - Present

#### BSIT - Student

Developed and maintained diverse backend systems and functional components using multiple programming languages, demonstrating expertise in software architecture, server-side logic, and optimization across various platforms.

### At Nazareth Senior High School, 2021 - 2023

#### Senior High Student

Conducted experimental research using current technologies, exploring innovative approaches and applying cutting-edge tools to solve complex problems.
